EDUCATION

University of Engineering and Technology

Bachelor of Science in Computer Science, CGPA - 3.2

Lahore, Pakistan

Nov. 2021 – Present

EXPERIENCE

Software Engineer Intern

10Pearls

Dec. 2024 – Present

Lahore, Pakistan

- Building and maintaining web applications using the MERN stack, focusing on performance and user experience.
- Actively collaborating with cross-functional teams to deliver high-quality features and improvements.

Software Development Intern

Woit Solutions

June 2023 – Aug 2023

Faisalabad, Pakistan

- Enhanced WOIT Solutions' website frontend using TypeScript, optimizing user experience and navigation.
- Implemented Stripe payment gateway to facilitate secure and efficient customer transactions. Managed the integration process, including setting up payment methods.
- Designed and built the admin panel using React for the front end, Node.js for the backend, and MongoDB for the database. Implemented admin functionalities, including user management, and handling briefs and brands.

Teaching Assistant

University of Engineering and Technology

Dec. 2022 – June 2023

Lahore, Pakistan

- Instructed a group of students in the Lab of PF and OOP.
- Conducted lab sessions where students developed applications using C# and C++, managed version control with GitHub, and designed graphical user interfaces with WinForms.

PROJECTS

QuizWiz | Javascript, React, Express.js, Node.js, MongoDB

Oct. 2023 – Nov. 2023

- Created quiz management tool with React and Express.js, featuring quiz generation.
- Implemented JWT-based role-specific functionalities, Multi-factor Authentication, and protected routes in React, enabling secure authentication and class management. Handled quizzes, and question bank for multiple teachers.

Drags | React, CSS, Bootstrap

June 2023 – June 2023

- Developed a React-based e-commerce store project to provide a user-friendly interface for online shopping.
- Incorporated optimized React concepts like Redux for state management and advanced tools like Firebase for authentication.

The Universal Pharma | .net, Winforms

Nov. 2022 – Dec 2022

- Developed a management system related to the medical field and utilized various data structures like Link Lists, Trees(AVL), etc.
- Implemented sorting(Merge, Quick, etc) and searching(Binary Search) algorithms for the optimization in terms of time and space.
